Professional Summary:

Detail-oriented Front-End Developer with expertise in HTML, CSS, JavaScript, and React. Skilled in creating responsive, user-friendly websites using Tailwind CSS and Redux. Proven track record in managing projects from concept to deployment, delivering high-quality web solutions with a focus on performance and usability. Seeking to apply technical skills and passion for web development in a dynamic front-end development role.

Technical Skills:

- **Languages**: JavaScript
- **Web Development**: HTML, CSS, SASS, DOM Manipulation, AJAX, Async JS, APIs, REST APIs, Git & Version Control, Redux
- **Web Development Tools**: VSCode, Chrome DevTools, GitHub, Netlify, Figma
- **Frameworks**: Bootstrap, Tailwind CSS, React.js

Professional Projects:

- **FilmyVerse: [(Link)](Link)**
  - Developed a **responsive** React web application for movie enthusiasts to explore, add, and review films.
  - Integrated Firebase for real-time data management, enabling dynamic updates of movie information such as titles, images, and descriptions.
  - Features include user review submissions and display, showcasing proficiency in **React**, **state management,** and **real-time data integration.**

- **E-Shop: [(Link)](Link)**
  - Built a fully responsive eCommerce platform using **React**, **Redux Toolkit**, and **Tailwind CSS**.
  - Includes a dynamic cart page, **product search**, **filtering options**, and integrated payment interfaces.
  - Designed for a seamless user experience with a modern layout and smooth checkout process, demonstrating skills in React, **state management**, and **responsive design**.

- **Google Gemini-clone: [(Link)](Link)**
  - Created a responsive generative AI application using React.js and the Google Gemini API.
  - Replicates Google Gemini's functionality, allowing users to interact with AI models for various tasks.
  - Demonstrates proficiency in **React.js**, **API integration**, and building responsive, **AI-powered web applications**.

- **Ochi Design:** [(Link)](Link)
  - Recreated the **award-winning** Ochi Design website with pixel-perfect accuracy using React.js.
  - Utilized **Framer Motion** for smooth animations and **Locomotive Scroll** for dynamic scrolling effects.
  - Features include an interactive element that tracks cursor movement and a fully responsive design.
  - Demonstrates expertise in **React.js**, **animation libraries**, and creating immersive, award-worthy web experiences.

- **VirtualR:** [(Link)](Link)
  - Developed a modern, fully responsive website using React and **Tailwind CSS**.
  - Features include a sleek, responsive navbar, autoplay videos, and a visually engaging hero section with gradient text.
  - Includes a pricing card section, testimonials, and a footer, all designed with Tailwind CSS for a cohesive and user-friendly experience.
  - Demonstrates skills in **responsive design**, **React development**, and UI creation.

- **Restaura:** [(Link)](Link)
  - Designed and developed a fully responsive restaurant website using **React** and **Tailwind CSS**.
  - Features include a fixed navigation bar, a full-screen background video, and a customer review section.
  - Incorporated **Framer Motion** for animations and **Flexbox** for layout.
  - Includes sections for showcasing dishes, a mission video, and contact information, demonstrating skills in **responsive design**, React development, and UI/UX design.

Education:

- Bhandarkar's Arts and Science College Kundapura:
  - Completed Bachelor of Commerce with Computer Application
    - **CGPA: 7.72**
    - Mangalore University (Sep, 2021 – Jul, 2024)
    - **Year of completion: 2024**
    - **Specialization in Computer Science**
